

# Army Trades

*Maj. Gen Sharad Kapur, USM SM*

*Director General*

## MESSAGE

1. Directory of Equation of Service Trades and Guide to Registration of Defence Service Applicants for employment was last published in 2012. With the passage of time and fast technological developments, a number of additional Service Trades and Civil Trades have come into existence. There was, therefore, an operational/ administrative requirement to revise the Directory to meet the present day requirements of Ex-Servicemen/ Environment.
2. The publication of this compilation has been possible with sustained combined efforts of Directorate of Training in Dte Gen Resettlement, Dte Gen Employment, Ministry of Labour & Employment and three Service Headquarters.
3. I am sanguine that this new addition of the Directory will act as an all time guide to Employment Exchanges and Rajya/ Zila Sainik Boards in identifying equivalent civilian posts for Ex-Servicemen who are aspiring for a second career, thus facilitating their registration and in seeking suitable employment. This will also help perspective employers in obtaining the correct human resource from DGR/ ESM Fraternity.

New Delhi

Dated : Nov 2022

**Sharad Kapur**  
**Major General**  
**Director General (Resettlement)**

**Government of India  
Ministry of Labour & Employment  
Directorate of Employment**

New Delhi, Dated -----

**OFFICE MEMORANDUM**

**Subject : Equation of Trades of the Indian Armed Forces with the Civilian Occupations to facilitate Registration of Ex-servicemen for Employment Assistance through the Employment Exchanges**

Every year, large number of service personnel get retired from the Armed Forces at a comparatively young age. In recognition for the services rendered by them for the defence of the country, they needed to be rehabilitated into civilian job, after retirement. It needs no emphasis that the ex-serviceman, by virtue of their experience and training in the Armed Forces are fully competent and equipped for performing various civilians jobs.

No doubt, the Central and State Governments and the Public Sector Undertaking have made provisions to give reserved quota of employment to the ex-serviceman. It is obvious that there is a wide gap between the rate of discharge of ex-serviceman from the Forces and the jobs reserved for them. It, Therefore, they need considerable support and effort on the part of employing organisations to provide more civilian employment to the ex-serviceman immediately on release from the defence services.

The Directorate of Employment in the Ministry of Labour and Employment have identified a number of technical trades of the Defence Forces and have equated them with the civilian occupations classified in the National Classification of Occupations, Code 2015.

The purpose was to provide a comparative information about the job performance of the service personnel during their engagement in the Army vis-a-vis the civilian jobs. These information have been further updated and the Directorate General of Resettlement have published a consolidated version of the Army, Navy and Air Force technical trades and comparable civilian jobs.

All Employment Officers are requested to make use of this directory for registering ex-servicemen in appropriate trades accurately for meaningful submission of ex-servicemen against reserved vacancies that have been notified to the Employment Exchanges as also against unreserved vacancies.

**(Dr. Shikha Anand)  
Director of Employment**

# EQUATION OF EDUCATIONAL QUALIFICATIONS

N. 15012/8/82 Estt. (D)

Government of India

Ministry of Personal, Public Grievances and Pensions  
(Department of Personnel & Training)

New Delhi, Dated 12th February 1986

## NOTIFICATION

1. C.S.R. In exercise of the powers conferred by the proviso to article 309 of the Constitution. the President hereby makes the following rules further to amend the Ex-serviceman (Re-employment in Central Civil Services and Posts) Rules, 1979, namely:
  - (a) These rules may be called the Ex-serviceman (Re-employment in Central Civil Services and Posts) (Amendment) Rules, 1986
  - (b) They shall come into force on the date of their publication in the Office Gazette.
2. In rule 6 of the Ex-serviceman (Re-employment in Central Civil Services and Posts) Rules, 1979 (hereinafter referred to as the said rules), after Sub-rule (3), the following sub-rule shall be inserted, namely:
  - (a) For appointment to any reserved vacancy in Group C Posts, a matriculate ex-serviceman (which term includes an ex-serviceman who has obtained the Indian Army Special Certificate of Education or the corresponding certificate in the Navy or the Air Force), who has put in not less than 15 years of service in the Armed Forces of the Union may be considered eligible for appointment to the posts for which the essential educational qualification prescribed is Graduation and where,
  - (b) Work experience of technical or professional nature is not essential; or
  - (c) though non-technical or professional work experience is prescribed as essential yet the appointing authority is satisfied that the ex-serviceman is expected to perform the duties of the post by undergoing on the job training for a short duration.
  - (d) For appointment to any vacancy in Group C & Group D posts where the prescribed minimum education qualification is matriculation the appointing authority may, at his discretion relax the minimum educational qualification in favour of an ex-serviceman who has passed the Indian Army Class-I Examination or equivalent examination in the Navy or the Air Force, and who has put in at least 15 years of service in Armed Forces of the Union and is otherwise considered fit to hold the post, in view of his experience and other qualifications.
3. After rule 6 of the said rules, the following rule shall be inserted namely:

**Lower Standard For Selection :** In the case of direct recruitment, if sufficient number of candidates belonging to the category of ex-serviceman are not available on the basis of general standard to fill all the vacancies reserved for them, candidates belonging to the category of ex-serviceman may be selected under a relaxed standard of selection to make up the deficiency in the reserved quota subject to the condition that such relaxation will not affect the level of performance by such candidates.

K. S. R. KRISHNA RAO  
DEPUTY SECRETARY TO THE GOVT OF INDIA  
TELE. NO. 3011225

## INSTRUCTIONS FOR THE USE OF GUIDE TO ARMY TRADES IN EMPLOYMENT EXCHANGES

1. **Introduction :** In 2004 DGE & T brought out a 'Guide giving civil equivalents of Army Trades for assisting Employment Exchanges' in rendering the latest changes. Many changes have taken place in contents of army occupation and many new trades have been introduced in the army since then. Further, the National Classification of occupation (NCO) Code published in 1968 and revised on 2004 and 2015 has been on the pattern of international Standard Classification of Occupation (ISCO) 1966. It has therefore become necessary to provide to the employment exchanges a fresh Guide giving civil equivalents of Army Trades.
2. **Principles of Equations :** In the Present 'Guide', an attempt has been made to identify civil equivalents of all individual Army Trades taking into consideration the following factors:-
  - (a) Job content of trade in the Army.
  - (b) Nature, type and length of training received by Army personnel.
  - (c) Educational and technical attainment of Army personnel.
  - (d) Occupational suitability of Army tradesmen for particular civil occupation and employability in civilian trades.
  - (e) Aspiration of Army personnel in view of their rank and position in the Army
3. **How to use the Guide.** As an aid to Employment Offices in registering ex-servicemen and matching them against particular civilian vacancies, the Guide contains definitions of individual Army trade in each group giving its job contents, highlighting to the extent possible job performance of comparable civilian trades.
4. Against each trade generally, more than one civil equivalent occupation (s) have been given in the order of their suitability and importance. Thus, a list of all civil occupation is given for which an ex-servicemen belonging to a particular trade could be consideration suitable and qualified. The primary trade mentioned in the directory are the most suitable for trade for an individual. However, employment offices may consider the ex-servicemen for registration in any of the occupation subjects mentioned against his trade.
5. Ex Servicemen who have received diversified training and acquired experience in several trades in the service would be eligible for consideration against several civilian trades.
6. The Guide does not cover officer cadre. Officers by virtue of their position, would be eligible for employment in civil life for executive, administrative or managerial posts and they should be registered for such jobs.
7. Ex Servicemen coming to Employment Exchanges be provided assistance with regards to determining the occupation for which they should be registered as well as the occupation for which they should be sponsored. The Guide, if used with imagination, could be invaluable in providing befitting resettlement to ex-servicemen in civil sector.

28 (a)	Group Y / Non Technical	Fitter	Sep, Nk and Hav	<p>(a) Fitter makes metal dies to prescribed dimension for punching, cutting, forging and forming of metal or synthetic components for mass production. Studies drawing and specifications of dies to be made. Selects required type of metal or rough cast metal block. Machines or grinds one surface and marks it with template or otherwise to indicate dimensions and other working details. Cuts shapes, drill holes and mills metal according to marking on various machines. Checks dimensions while working with gauges and other measuring tools. Finishes made die (punch) by filing to required dimension and fits female to it. Files cutting angle and clearance accurately in female die and checks for sizes. Drills holes and cuts thread in female die for driving guide pin and fitting guide plates. Gets male and female dies tempered and grinds them to finish ensuring correct shear, cutting angle, clearances, etc. Sets finished dies in press and cuts or forms some trial pieces to ensure accuracy and correct production. May shape female die block to required angle for fitting it in bolster. May repair used dies and grind them to desired finish. May operate lathe, milling and shaping machines and harden and temper dies.</p> <p>(b) Identifies metals, tools; carrying out fitting and fabrication operations like measuring, marking out, sawing, grinding, drilling, chiseling, threading, tapping, scraping, manual lapping and inspecting of components in order to fit a component as per specifications. It also involves basic oxy-fuel gas cutting and basic manual arc welding as per given instructions and under supervision.</p> <p>(c) Lays out, assembles, installs and maintains sanitary fittings and fixtures, sewage and drainage systems, heating and sanitary systems, gas and water pipe lines etc. Receives instructions from Sanitary Engineer or Civil Engineer regarding lay out of pipes, gas or water mains, position of fixtures and fittings, etc. Examines drawings or other specifications regarding size and dimensions of area where sanitary fittings or pipe are to be fitted or laid. Marks points at places to indicate position for fixing brackets and laying pipes.</p>	Matric/ Intermediate	NA	Plumber (Pumps & E/M Mechanic)	7233.1301	Primary

				<p>Drills passage holes in walls or floor of premises and fixes necessary brackets, stands, holders etc. to keep or hold fittings and fixtures in position, using nuts, bolts, clamps etc. and tightens them with hand tools. Cuts reams, threads and bends pipes as appropriate. Ensures that pipe lines are laid properly by Pipe Fitter. Joins pipes with sockets, Tees, elbow etc. or with molten lead or lead wool. Caulks joints (operation of making joint seam tight to withstand pressure) and tests them for leaks with pneumatic or hydraulic pressure. May repair and maintain sewerage and pipe lines by replacing washers on leaky faucets, mending burst pipes, opening clogged drains, etc. May do lead burning, dressing and bossing of lead pipe and sheet lead, inlaying of wooden tanks, construction of septic tanks etc.</p> <p>(d) And is responsible for maintenance, opration and servicing of plumbing system, pipes and sanitary fixtures in housing and institutional setups.</p> <p>(e) And Sewer Pipe Layer lays concrete, stone ware or clay pipes to form sanitary drains and sewers. Receives instructions regarding size and type of concrete, stone ware or clay pipe to be laid. Digs or gets earth dug along marked lines using spade, picks etc. to make trenches for laying pipes. Levels and smoothens bottom of trenches to proper gradient by scooping with shovels. Receives pipes of required size lowered into trench manually or by pulley and adjusts their position by hand or crow-bar for correct levelling and vertical and horizontal alignment. Joins pipes together using appropriate couplings, joints, rings etc. and closes joints by caulking with fibre and cement to prevent leakage. Tests joints by hydraulic or pneumatic pressure after sealing. Fills trench with earth to cover laid pipe and rams earth to avoid sinkage. May lay pipe lines to provide water connection to houses, sanitary sewers etc. May fix meters to stopcocks, remove defects from pipe lines and replace defective ones.</p> <p>(e) And is responsible for installation and repair of Pumps and E/M equipment used for different plumbing applications of housing and institutional setups.</p>
